FOR IMMEDIATE RELEASE

ELITE AUDIO AND VIDEO BRANDS, UNVEILS GROUNDBREAKING IMMERSIVE HOME THEATER EXPERIENCE AT CEDIA 2024

COPENHAGEN, DENMARK

AUGUST, 2024

Denver, USA - September 5th - 7th, 2024

The elite within the A/V industry are raising the bar by showcasing the most advanced and high-performing immersive home theater demonstration ever presented at CEDIA (Custom Electronics Design and Installation Association). This landmark event promises to captivate attendees through cutting-edge technology and unparalleled sound experiences.

Cinematic experience that goes beyond the ordinary

Leading A/V brands, such as Trinnov, Barco, Kaleidescape and others, will come together to unveil innovative products and demonstrate the future of immersive A/V in home theaters, setting a new standard for enthusiasts and professionals alike. This comprehensive demonstration features no less than 33 channels, with Perlisten S7t Limited Edition as front LCR's, S5i Surrounds, and S4s Atmos Speakers, not to mention an impressive 14 pieces D215s Push-Pull design active subwoofers, each featuring dual 15" woofers. The D215s is powered by a 3000W amplifier.

HiFi Clarity embraces Home Theater Power

"In an age where technology and entertainment merge seamlessly, our immersive home theater demo represents the pinnacle of audio innovation," said Lars Kragh Johansen, Chief Sales Officer at Perlisten Audio. "We are excited to share an audiophile home theater experience with fellow audio professionals and enthusiasts."

Attendees can look forward to interactive sessions, engaging presentations, and the opportunity to experience the latest advancements firsthand. The event will also feature networking opportunities with leading industry professionals and representatives.

Experience this exciting space in the special crafted cinema made by Officina Acustica, Italy.

Location: booth number 2938. VIP entrance by appointment only.

About PERLISTEN AUDIO

Redefining the Standard in Sound Quality At Perlisten, we believe that sound is more than just an experience - it's an art form.
